

Poopify Manual Test Plan

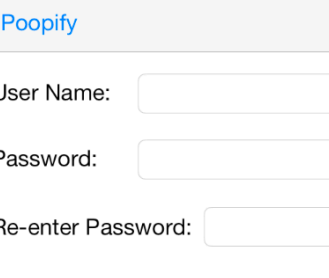

When you launch the app, the home screen should look similar to the image below.

When you click the login button at the top left, the page should look like this.

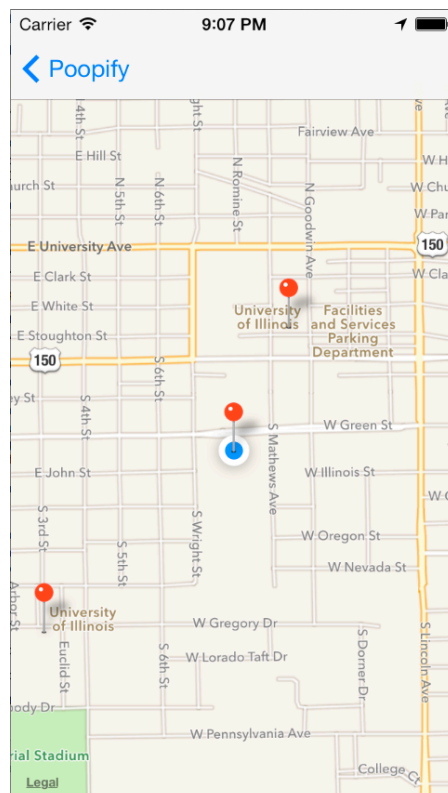

When you click signup in the top right, the page should swipe in from the right and look like this.

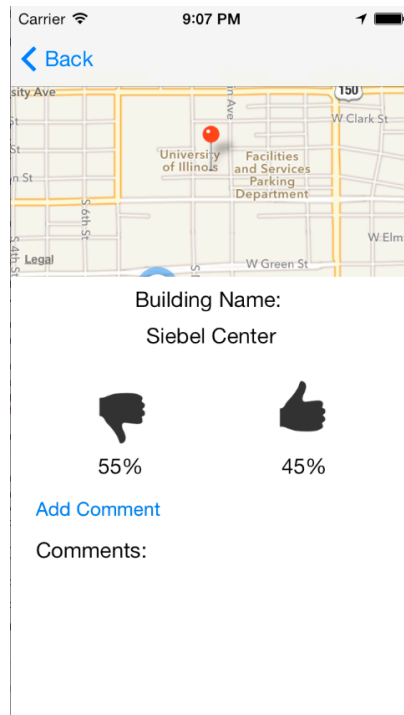

The screenshot shows a mobile application interface for a login page. At the top, the status bar displays 'Carrier' with a signal strength icon, the time '9:05 PM', and a battery level icon. Below the status bar, the app's header features a blue back arrow icon and the title 'Poopify' in a blue, sans-serif font. The main content area is white and contains three form elements: a 'User Name:' label followed by a white rectangular input field with a thin gray border; a 'Password:' label followed by a similar white rectangular input field; and a 'Re-enter Password:' label followed by a third white rectangular input field. At the bottom center of the screen, there is a blue 'Submit' button with white text.

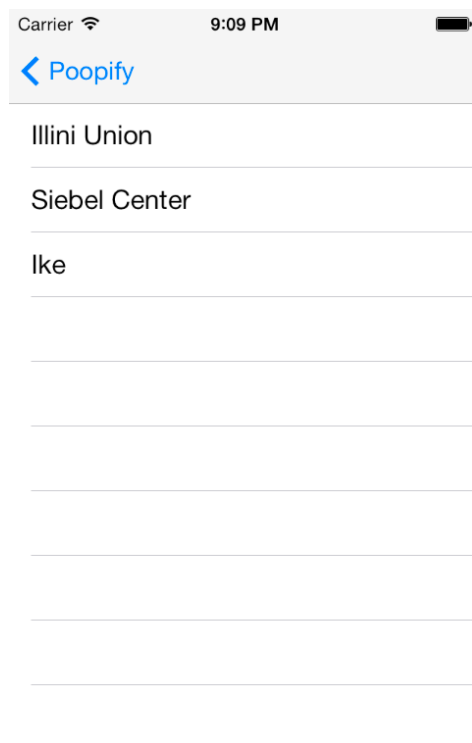

When you click the map button it should open a page that looks like the image below.

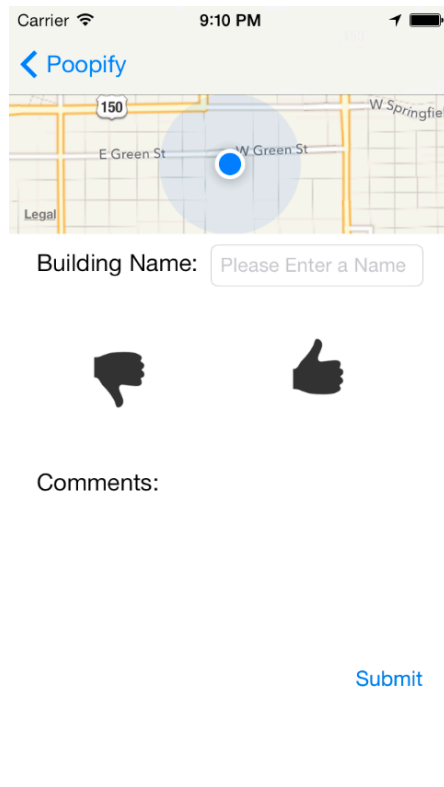

If you click on one of the pins and select the information button, it should open a page that looks like this.

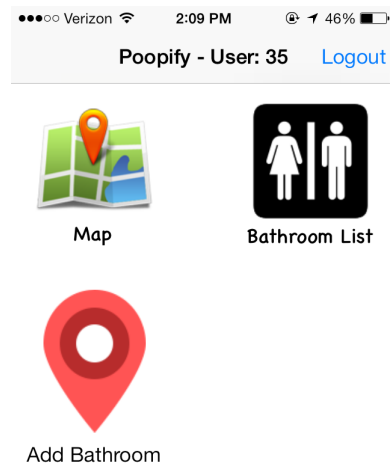

When you click on bathroom list on the main page, it should open a page that looks like this. And if you click on one of the names, it should open a page that looks like the picture above this.

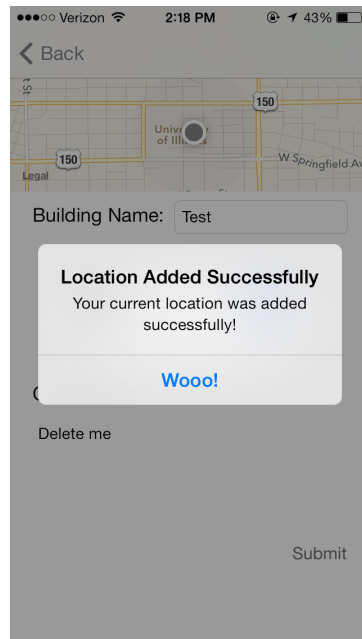

When you press the Add Bathroom button on the front page, it should open up a screen that looks like this.

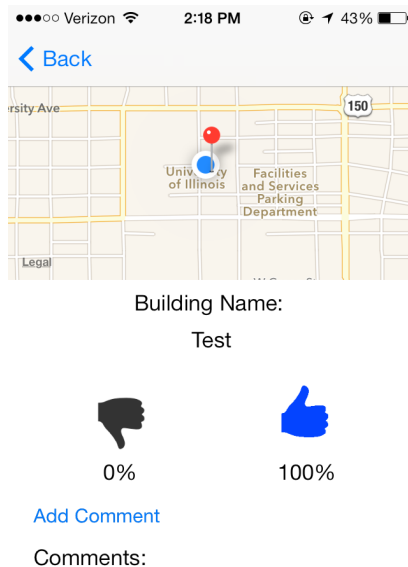

When you login, the home page should look similar to the picture below. The User: (#) will be different based on your account.

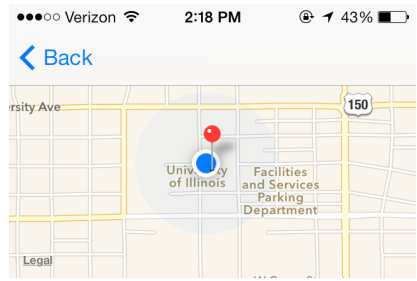

When you add a location, fill in all the information and click submit, you should get a popup that looks like the following.

When you open up a location you have already rates, the thumb that you rated should highlight as in the picture below. If you change your rating, it should change the selected thumb and change the percentages to reflect the new values as in the second image.

[Add Comment](#)

Comments:

When you load a page, either from the map view or list view, it should look like this. Notice the comments should be there at the bottom of the page, if comments exist, and there is a new image button.

Comments:

User: 35

Lol

User: 41

User: 35

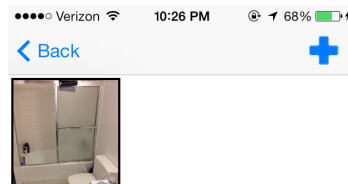

Love this place!

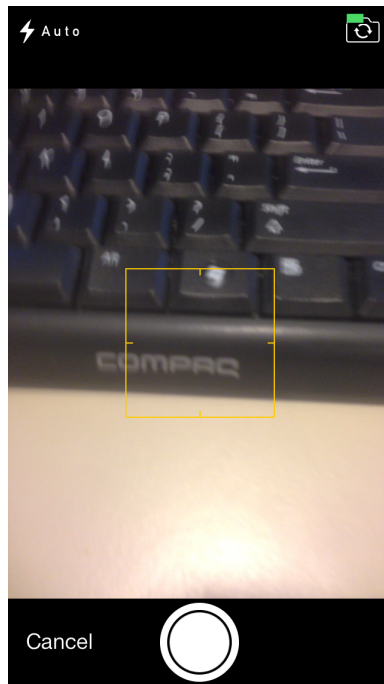

User: 41

When you click the add comment button it should bring you to a page that looks like this. When you click comment it should bring you back to the previous page and your comment should now appear at the bottom!

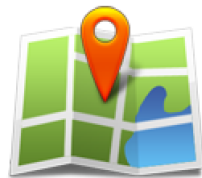

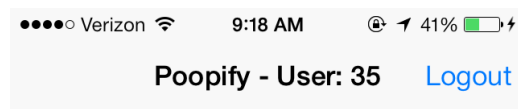

When you click the photo button, it should take you to a page that looks like the one below. It may have more or less (none) pictures on it. When you click the plus in the top right, it should take you to the camera like the second picture. After you take the picture and choose to use it, it will take you back to screen one and your picture should appear at the bottom of the list of pictures

Now when you open the home screen, there should be another button and it should look like this.
